Rob Somerville—Trombone

This CD was recorded August 2008 in Toronto, ON at Canterbury Studio's with Canada's finest musicians and André's original songs. His music is very reminiscent of classic Rhythm & Blues with a big sound and 5 piece horn section which you don't see too often these days. André's songs have been skillfully written and are compared to the Blues Brothers, The Commitments, Wilson Pickett, and Otis Redding. Each song has a little bit of a different flavor, "Free Ride Blues" has a down and funky sound that's madly energetic and gets people dancing, "Second Chance" is very bluesy and soul filled, and a Neil Young cover of "Heart of Gold" where the horns keep the intensity levels high and a groove with a contagious enthusiasm. This CD was nominated for the 2009 Hamilton Music Awards for Blues Recording of the Year, it was Voted Best Rhythm & Blues Recording by the Blues Underground Network, and Voted Best CD of 2009 by The Hamilton Blues Lovers.

André Bisson is a Hamilton, ON musician, with a great presence and vocals with the power of Wilson Pickett as well as the gentle sound of Otis Redding and Sam Cooke, he has a gutsy, raspy and passionate/soulful voice. He is a great arranger, guitar player, businessman, and of course, he's very down to earth. André has no problem delivering his songs with a heavy groove line making everyone in the room sit up and listen, in venues all over Hamilton, Burlington, Mississauga, Streetsville, Milton, and Sault Ste Marie.

"If soulfully sung blues, backed up by hot rhythm, with a full, and very funky, horn section do the trick for you, then "Rhythm And Blues Experience" by Andre Bisson will surely work some magic for you."

-Peter Blewzzman Lauro—Mary4Music Blues & Indie Resource Network

"His vocals are quite good, unashamedly recalling the soul greats."

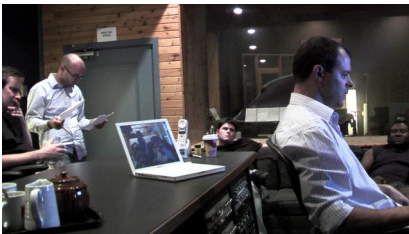

-Mike Beggs—Mississauga News

"Rhythm and Blues Experience" consists of a virtual powerhouse of musicians, in fact Andre features 9 other superb musicians on this album, all working in perfect harmony together, producing both a soft and a big band feeling depending on the nature of the song."

John Vermilyea— Blues Underground Network

"With a solid cast of musicians to perform the tunes, what shines is the almost live, edgy vibe of the CD and Bisson's powerful voice - not far off from influences like Joe Cocker - gritty and soulful."
